FRONT-END DEVELOPPER

Experienced and diligent Front-End Web Developer with a solid expertise in HTML, CSS, and JavaScript. My dedication to crafting visually captivating and intuitive websites is matched only by my enthusiasm for continual learning and growth. I am keen to leverage my skills and drive in an entry-level role within a dynamic and collaborative professional setting, where I can both apply and enhance my abilities.

NOTABLE PROJECTS

DELTA TRANSLATE (TEAM-PROJECT)

- This website facilitates users in effortlessly translating their text into the language of their choice.
- My work on this website features an integrated user authentication system, including signup and login functionalities, and a dedicated PDF translation section.
